

ARMAND VELARDO'S 10 TIPS FOR SUCCESS

1. Love and respect your parents and siblings.
2. Be honest and trustworthy.
3. Education is your ticket to a better life; do not waste the opportunity. Don't skip classes. Spread your homework over 7 days. When studying for an exam, study the material that you do not know. Instead of always reviewing the material from the oldest chapter to the newest chapter, start with the newest chapter and work backwards.
4. Never give less than 100% effort. Be dedicated, loyal, and work hard.
5. Be a leader, not a follower.
6. There is no need to smoke, get drunk, or get high.
7. Walk away from extreme conflict.
8. Every time that you get paid, save some money for the future.
9. Help others when you can.
10. When taking on life and education, you need to grab the bull by the horns, stick your foot halfway up its rear, and try to control it.
